Colorcoat HPS200®,

Depending on limitations in the printing technique, differences can arise between the printed result of the NCS Digital Atlas and the nearest NCS colour sample. For technical reasons, variations between the monitor and NCS Original colour samples can also occur. When communicating colour, always refer to the NCS notation and an NCS Original colour sample to be certain to get the best colour accuracy.

Confidex®

The diagram illustrates the durability of Colorcoat Prisma® paint across four zones. It features four green rectangular bars representing different surfaces: Dakken (Roofs), Gevels (Walls), Landinwaarts (Inwards), and Kast (Cabinets). Each bar has two numbers indicating durability: the top number for Uni en Metallic kleuren (Solid and Metallic colors) and the bottom number for Matte kleuren (Matte colors). The bars are arranged in descending order of durability from left to right.

Zone	Dakken (Uni en Metallic)	Dakken (Matte)	Gevels (Uni en Metallic)	Gevels (Matte)	Landinwaarts (Uni en Metallic)	Landinwaarts (Matte)	Kast (Uni en Metallic)	Kast (Matte)
Zone 1	30 jaar	25 jaar	25 jaar	20 jaar	25 jaar	20 jaar	30 jaar	25 jaar
